Simplify the business of healthcare.

"The usage of Codescan, Pinnacle's professional review of problem claims, and the extensive payor edits in MISYS, have allowed us to prevent numerous common denials. This has increased our clean claims percentages dramatically."

Richard G. May, MD, President of Colorado Orthopedic Surgery Specialists & Colorado Orthopedic Trauma Surgeons and President of the Colorado Medical Society.

Right-sized Solutions. Right-sized Price.

Pinnacle Medical Billing offers both a la carte and full-course billing system and electronic medical record solutions – scalable as increased practice need and scope dictate. As a MISYS channel partner, Pinnacle offers affordable access to medical billing and electronic medical records technology that until now has been too expensive for most practices to consider.

As a MISYS partner, Pinnacle offers affordable access to medical billing and electronic medical records technology ...

Best of both worlds: Technology and Process.

Medical billing companies typically excel either in technology or process. Today's complex medical business environment demands top-of-the-line expertise in both areas. Pinnacle gives you technology and process excellence unequaled in the medical business arena – reliably and affordably.

"They managed the start-up of our practice from scratch, and their billing service has our accounts receivable and collections as clean as we could desire. They have truly met their commitments and our expectations."

Charles Venhook, MD, President, Longmont Pulmonary and Critical Care Associates and a Pinnacle Management & Billing Client.

"Pinnacle's business experience and expertise allowed for a smooth transition from an Occupational Medicine facility into a full-service Urgent Care practice. We have been very pleased with Pinnacle's billing services as well as their knowledge of contract negotiations and industry norms."

James L. Higate, MD, Vice-president of Reliance Medical Group and a Pinnacle Management & Billing Client.

Saving you money while saving you money.

Pinnacle understands the financial demands and pressures of today's practice environment. That's why Pinnacle strives to keep your costs low, and your return on investment high.

"Now that Pinnacle has successfully implemented Codescan for our practice, claims have to clear the system edits and the review of Pinnacle's professional coders before filing them. We are now resolving accounts receivable more than 40% faster than with our previous system and Days in A/R went from 64 to 33."

Jeffrey Turk, MD, Vice President of Timberline Clinic and a Pinnacle Billing Client.

Right for every practice stage and scenario, from startup to retirement.

1. Startup. This can be startup of a practice or a new technology, such as electronic medical records. Change, even when it's positive and exciting, can still feel threatening. Pinnacle partners with physician clients to make the startup process fun and comfortable, as well as productive.

"Pinnacle was invaluable in guiding our pediatric practice start-up. They were knowledgeable, helpful, and accessible. We feel that Pinnacle saved us a great deal of effort, time and money. And we had fun."

Cecile Frealey, MD, Vice President of the Board of Managers at Pediatric Partners of the Southwest, PC, and a Pinnacle Management Client.

2. Problem Identification and Solution. Physicians are called upon daily to find healthy solutions to patient problems. Pinnacle is called upon daily to find healthy business solutions to practice problems. Don't let symptoms of poor fiscal condition go untreated in your practice.

"I have always had an aversion to and distrust of billing companies, but Pinnacle really is a different company ... They have proven to be honest, capable and professional. They helped me turn my practice around and have far exceeded my expectations."

Richard P. Evans, MD, President of Cherry Creek Orthopedics and a Pinnacle Management & Billing Client.

3. Retirement. Maximizing practice value when selling or shutting down is obviously critical. Through its medical billing, healthcare consulting and physician resource divisions, Pinnacle offers a full range of services designed to maximize profits and value, while simplifying the entire process ... and your life.

"The executives of Pinnacle make up an exceptional team. Their collective knowledge base and broad expertise are impressive. Every issue was addressed quickly, concisely, and accurately. I'm looking forward to our continued work together."

David Zieg, MD, Medical Director of AlterDura Inc. and a Pinnacle Management & Billing Client.
